CAPER

CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

The State continues to focus CDBG resources on public water/wastewater infrastructure, community public facilities, housing, and economic development with the express purpose of assisting businesses with job creation. In addition, we have small set-asides for urgent need and downtown commercial rehabilitation projects. The State is on target to obligate all FY18 CDBG funds to local governments carrying out these activities.

The HOME Program served 58 households with their First Time Homebuyer Program, TBRA served 828 households, and the Rental Program developed 9 newly constructed and 52 rehabilitated units.

Housing Trust Fund (HTF) completed 4 new construction units.

The HOPWA Program provided housing assistance to 244 clients. The program helped 76 of these clients transition from homelessness into secure housing. Overall, the program reached 376 different individuals, including the family members of the clients who Kansas Care Through Housing (KCTH) served. The HOPWA Program provided supportive services to 558 individuals, which included 399 clients and their family members. The supportive services are crucial to clients outside of just housing assistance, as many areas around the state lack the necessary resources to provide these services.

The ESG program served a total of 2,795 persons. Homelessness prevention served 214 persons, rapid re-housing served 564 persons, emergency shelter assisted 1,878 persons, and 71 persons in street outreach.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee's program year goals.

Goal	Category	Source / Amount	Indicator	Unit of Measure	Expected – Strategic Plan	Actual – Strategic Plan	Percent Complete	Expected – Program Year	Actual – Program Year	Percent Complete

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

The State continues to focus CDBG resources on public water/wastewater infrastructure, community public facilities, downtown commercial rehabilitation, housing rehabilitation and economic development with the express purpose of assisting businesses with job creation. In addition, we have small set-asides for Urgent Need. The State is on target to obligate all FY18 CDBG funds to local governments carrying out these activities.

CDBG and HOME accomplishment data in the charts is based on the units completed between 1/1/18 and 12/31/18. The reported unit numbers include the total units for the projects created with these funds as reflected in our 2014-2018 Consolidated Plan and 2018 Action Plan explanations. Due to reporting on projects completed in IDIS during the previously mentioned time period, the expected number populated in the charts below conflicts with the actual number reported and incorrectly gives the impression that we did not meet some of our one year strategic plan goals.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted).

91.520(a)

	CDBG	HOME	HOPWA	ESG	HTF
White	59,285	735	214	1,946	4
Black or African American	4,174	162	61	435	0
Asian	1,698	9	1	10	0
American Indian or American Native	707	21	0	72	0
Native Hawaiian or Other Pacific Islander	71	12	0	19	0
Total	65,935	939	276	2,482	4
Hispanic	7,428	78	26	436	0
Not Hispanic	63,318	869	188	2,331	4

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

Due to information missing and/or refusal to supply the above information, some of the numbers may not add correctly. Additionally when gathering information, the additional category of "Multi-Racial" is included. ESG also reported an additional 240 multiple races, and 73 declining to report. Therefore the total served in ESG is approximately 2,795.

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available

Source of Funds	Source	Resources Made Available	Amount Expended During Program Year
CDBG	CDBG	15,546,612	39,495
HOME	HOME	6,577,943	5,092,466
HOPWA	HOPWA	512,927	439,219
ESG	ESG	1,557,055	1,539,471
HTF	HTF	3,000,000	1,268,769
Other	Other		

Table 3 - Resources Made Available

Narrative

Please note that the “Resources Made Available” above may not include other funding years that may have been carried forward.

Identify the geographic distribution and location of investments

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description

Table 4 – Identify the geographic distribution and location of investments

Narrative

These programs are intended to assist on a statewide basis, so there are no designated target areas.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

The HOME program granted \$864,477 to first-time homebuyers, which leveraged \$4,779,544 in private mortgage funds. Rental development expended \$2,265,462 in HOME and \$350,000 in HTF, together leveraging \$6,037,876. The HOME program raised \$1,604,552.75 in non-federal matching funds.

Fiscal Year Summary – HOME Match	
1. Excess match from prior Federal fiscal year	14,194,544
2. Match contributed during current Federal fiscal year	763,759
3. Total match available for current Federal fiscal year (Line 1 plus Line 2)	14,958,303
4. Match liability for current Federal fiscal year	997,498
5. Excess match carried over to next Federal fiscal year (Line 3 minus Line 4)	13,960,805

Table 5 – Fiscal Year Summary - HOME Match Report

Match Contribution for the Federal Fiscal Year								
Project No. or Other ID	Date of Contribution	Cash (non-Federal sources)	Foregone Taxes, Fees, Charges	Appraised Land/Real Property	Required Infrastructure	Site Preparation, Construction Materials, Donated labor	Bond Financing	Total Match

Cost	0	0	0	0	0	0

Table 10 – Relocation and Real Property Acquisition

CR-20 - Affordable Housing 91.520(b)

Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.

	One-Year Goal	Actual
Number of Homeless households to be provided affordable housing units	3,445	2,929
Number of Non-Homeless households to be provided affordable housing units	284	813
Number of Special-Needs households to be provided affordable housing units	105	169
Total	3,834	3,911

Table 11 – Number of Households

	One-Year Goal	Actual
Number of households supported through Rental Assistance	1,275	828
Number of households supported through The Production of New Units	43	13
Number of households supported through Rehab of Existing Units	389	118
Number of households supported through Acquisition of Existing Units	84	58
Total	1,791	1,017

Table 12 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

In the above numbers, CDBG served 66 in the activity of Rehab of Existing Units and the HOME program served the other remaining units in their rental acquisition rehab program. Through all four activities above, the HOME Program served 944 and HTF 4.

Discuss how these outcomes will impact future annual action plans.

The number served under rental assistance should be reduced in future plans as well as the rehabilitation of existing units. Funding fluctuations in the HOME Program makes it difficult to project the numbers to be served.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual	HTF Actual
Extremely Low-income	3	704	4
Low-income	10	155	
Moderate-income	53	86	
Total	66	945	

Table 13 – Number of Households Served

Narrative Information

Extremely low-income households are the highest served population in the HOME Program and the National Housing Trust Fund. In the first chart in this section, ESG numbers were included in the homeless served and non-homeless served.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The Emergency Solutions Grant (ESG);

Emergency Shelters - In FY2018, ESG funding was provided to seven (7) emergency shelters and twelve (12) emergency shelters for victims of domestic violence. This funding provided 488 beds for homeless individuals. This was a total of 1,238 households consisting of 1,878 persons served in ESG funded shelters. In FY2018 **Street Outreach** assisted a total of 67 households consisting of 71 persons. **Rapid Re-Housing** - In FY2018, Rapid Re-Housing assistance was provided to 266 households consisting of 564 persons. **Homeless Prevention** - In FY2018, Homeless Prevention assistance was provided to 89 households consisting of 214 persons.

Addressing the emergency shelter and transitional housing needs of homeless persons

The Kansas Balance of State Continuum of Care (BoS CoC) is implementing a coordinated entry process. The goal of this effort is to establish a solid foundation for providing a BoS CoC-wide approach to matching homeless families with services and housing to reduce the number of homeless families in the BoS CoC. Integral to that effort was the formation of a Coordinated Entry Committee to oversee the coordinated entry (CE) system. This Committee has set policies and procedures for implementing a CE system across the BoS CoC. That effort has culminated in a Coordinated Entry Policies and Procedures guide that has been approved by the BoS CoC membership. An important part of implementing a CE system is the formation of Regional Coordinated Entry Teams (RCET) that have been established in each of the BoS CoC eight regions. The RCETs are tasked with the implementation of the CE system and have oversight responsibility for the Master List. The Master List includes clients that have been prioritized for their respective regions. The prioritization of all people is based on a common assessment, the Vulnerability Index - Service Prioritization Decision Assistance Tool (VI-SPDAT). Services are prioritized based on the VI-SPDAT score. If a person is at the top of the list but not eligible for the program, the service opportunity will go to the next person on list. In that case, it will be documented why the most vulnerable person was not served and that person will remain at the top of the prioritization list. The most vulnerable person who is eligible for the service available will be offered the service. Participants will not lose their place on the prioritization list when/if refused a housing option. There remain many challenges to overcome. Each region is working to find solutions to those challenges, some which are geographic in nature and others that are related to confidentiality issues with the domestic violence services providers. Collectively, the BoS CoC is working together to ensure a standardized process is

being implemented and challenges are being addressed. In addition, the BoS CoC received HUD technical assistance to assist in the process for ending veteran homelessness. As a result, “Vets@Home” leadership team was established and continues to work collaboratively with the BoS CoC’s CE Committee to create a Master List of homeless veterans to allow for an expedited response time to ensure veterans receive housing and other services as well.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

With the federal emphasis on addressing chronic homelessness through the coordinated entry process, the Kansas BoS CoC submitted and was awarded a new project application in the 2018 CoC program competition for the Coordinated Entry Improvement Project (CEIP). In addition, all BoS CoC renewal projects were funded as well. The CEIP award will provide the CoC staff capacity to support and improve the current Coordinated Entry System (CES). Currently the CES is overseen by a volunteer RCET Committees made up of CoC members and is operated regionally in each of the 8 BoS CoC Regions. The current lack of staff capacity to support the volunteer efforts presents enormous challenges in implementing a consistent and effective CES across the BoS CoC’s 101 counties. A key goal of this project is to resolve the challenges to enhance the CES processes. One Lead CES Coordinator and 2 part-time Regional CES Coordinators will be identified to implement all project activities. The CES Coordinator will oversee the 2 Regional CES Coordinators who will be assigned 4 regions each as dedicated support staff to work with the existing 8 volunteer Regional Coordinators to support and improve each region’s CES implementation. The CES Coordinator will lead the CEIP implementation. The CEIP will include an organizational structure to ensure consistent, communication and training to stakeholders participating in the CES. The CEIP will include email, website and Facebook communication to ensure all CES members have access to the most current and accurate information.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The Kansas Department for Aging and Disability Services (KDADS) has merged Housing, Employment and Benefits programming at the Central Office within the Behavioral Health Commission. Kansas Department for Aging and Disability Services (KDADS) is using this model throughout the state and our Homeless Outreach teams are beginning to get certified in SOAR. Our Community Mental Health Center

SOAR staff have assisted 239 consumers with Medicaid applications and connected 150 street/sheltered homeless consumers back to Medicaid and SSA Benefits. Our largest Community Mental Health Center in Kansas (COMCARE) has a SOAR representative trained at the SOAR National training for Children and is working with the Behavioral Health Authority to create a statewide system to assist children and transitioned aged youth with benefit application and employment through Vocational Rehabilitation Services and through IPS Supported Employment. Our State Psychiatric Hospitals are following Center for Medicaid Services (CMS) recommendations for discharge planning and our hospital discharge teams are connecting persons back to SSA and Medicaid prior to discharge. The State Behavioral Health Authority KDADS and State Medicaid Entity Kansas Department of Health and Environment (KDHE) are working together through a policy to ensure that consumers can have benefits on the day of discharge from the hospital.

In 2016 KDADS the Behavioral Health Authority embraced the Housing First Model and have been receiving consulting services and a training and fidelity site visit from the team from Pathways to Housing. KDADS hopes to expand the Housing First Model across the state and have plans to have that team back again in 2019 to deliver another Housing First Training in our State for our Substance Use Disorder provider. KDADS is currently working with the Medicaid Authority on a policy specific to housing support services and are using HUD definitions of homelessness to help guide the policy.

We currently have 6 Community Mental Health Center locations in the State where the SOAR staff work directly with the IPS Supported Employment specialist so disabled consumers who wish to return to employment can be referred directly to an IPS Supported Employment to assist them with access to employment and benefits planning through a Certified Work Incentive Specialist (C-WICK). Our Mental Health Entity KDADS works directly with a transition team for the Home and Community Based Waivers to coordinate services with the Continuum's of Care and the Coordinated Entry Process for high risk disabled consumers who are at risk of homelessness.

In 2018 the Kansas Legislature awarded the State Mental Health Authority \$500,000.00 for a Bridge Housing Pilot Project where consumers who meet the HUD definition of Homeless will have immediate access to Bridge Housing. This project has also included the Substance Use Disorder consumers and that pilot project ensures that consumers exiting detox are referred to safe housing until they can either access residential or outpatient treatment. This project design also allows for consumers who are exiting residential treatment who meet HUD definition of homelessness to be referred to permanent supported housing options and Coordinated Entry sites. The funding for this project includes paying for Housing Support Services to increase consumer retention in housing.

The Mental Health Authority has recently hired a Veterans Program Manager who will be working with the VA and the HUD VASH programs in our State.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

As the state housing finance agency, KHRC does not manage or oversee funds to any of the Public Housing Authorities throughout the state. We will continue to work with the Public Housing Authorities to house Kansas's low-income households to the extent that our HOME Funds allow. In 2018, KHRC continued to administer the Project Based Contract Administration (PBCA) contract for the State of Kansas. As the PBCA, our organization administers the Housing Assistance Payment (HAP) contract for the 235 HUD properties in our portfolio. In 2016, HUD reinstated the Management and Occupancy Reviews (MORs) allowing KHRC staff to conduct 102 MORs in calendar/program year 2018.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

In 2017, a database of e-mail addresses was developed from HUD's list of PHAs for the state of Kansas. A first time homebuyer flyer was sent to the PHAs again in 2018, requesting they post in a public place for their tenants information.

Actions taken to provide assistance to troubled PHAs

KHRC does not own or operate assisted housing units directly. For those PBCA properties within our portfolio, KHRC's Asset Management department acts as a liaison between the residents and management companies. As a liaison KHRC staff encourages communication between all interested parties to ensure that resident input is considered and access to management is improved. Also, see the attached Fair Housing Tracking Log.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

KHRC supports applications for funding that demonstrate state and local support of projects through waiver of fees, exemption of sales and property taxes, and consideration of zoning or planning flexibility to accommodate needed affordable housing development. Developers are encouraged to pursue sources of eligible match from these contributions.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

KHRC prioritizes, through scoring incentives, applications for funding that target underserved needs including very low and extremely low income households, households with special needs including disabilities, the creation of units to serve homeless individuals and families, and the development of affordable housing in rural areas where rates of poverty and substandard housing are higher. Application scoring also reflect priorities for development activities that preserve existing affordable housing, and that effectively leverage funding with other sources such as LIHTC. KHRC directs approximately 25-30% of its HOME allocation to Tenant Based Rental Assistance programs which primarily serve very low income and extremely low income households; with priority for those that serve higher numbers of homeless or special needs families and individuals.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

KHRC and the CDBG program have Lead Based Paint Policies and Procedures for rehabilitation activities, consistent with enforcing the HUD Lead Safe Housing Rule at 24 CFR Part 35, and the State of Kansas Lead-Based Paint Renovation, Repair and Painting Rule which is administered by the Kansas Department of Health and Environment.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The State of Kansas has a range of anti-poverty and jobs programs administered by state agencies other than those contributing to the Consolidated Plan. Housing development and CDBG programs create and support employment opportunities related to those activities, and indirectly relieve the financial stress on low income families by providing safe, affordable and energy efficient housing.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

The Kansas Department of Commerce, Kansas Department of Health and Environment, and Kansas Housing Resources Corporation partner with various state and federal agencies to collectively meet the

needs of eligible communities and households in the State of Kansas. KHRC also holds an annual housing conference with many sessions to develop capacity.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

KHRC has extensive mailing and email contact lists for housing developers, management companies, nonprofit housing and social service entities, Community Housing Development Organizations, Community Action agencies and local government entities. KHRC sponsors a housing search website, and contracts with a housing counseling agency for landlord and tenant counseling, as well as sponsoring an annual statewide housing conference. Additionally, the State of Kansas issued four Certifications of Consistency with the Kansas Consolidated Plans in 2018. The State received four Certifications of Consistency for local housing applications submitted to HUD.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

KHRC coordinates and chairs the Kansas Fair Housing Taskforce, which seeks to inform housing providers and consumers about fair housing rights and responsibilities. Owners and managers of properties funded by KHRC are required to submit an AFFHM plan for projects of five or more units. The plans are reviewed during periodic monitoring, including an accounting of Fair Housing activities and requests for modifications or accommodations. Where potentially underserved populations exist due to language barriers, management must account for marketing efforts. Fair Housing is included in ongoing training for property managers and frequently as part of the annual state housing conference sponsored by KHRC. The Fair Housing Tracking Sheet for 2018 is in the attachments.

In response to the analysis of impediments to fair housing choice, the HOPWA Program re-printed a brochure showing that underreporting of violations is largely due to a lack of education. Two hundred brochures were distributed throughout the State to clients through Ryan White medical case managers. The brochure, "Questions and Answers About The Fair Housing Act" identifies violations clients might encounter and provides information on how to report violations. Three hundred ninety nine clients accessed support services: nutrition, transportation, and counseling.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

Program and asset management staff monitor covered activities in accordance with written policies and procedures, and with statutory and regulatory requirements for each activity. Funding recipients submit plans for compliance, as well as ongoing reports and project completion information to certify that program requirements are being met. Those plans and reports include activities to address minority and women business outreach, Section 3 activities, Affirmative Fair Housing Marketing plans and activities, and other federal and state requirements.

Additionally, KHRC has a partnership with the National Association of Construction Contractors Cooperation (NACCC), located in Kansas City. NACCC provides Section 3 Business certifications. KHRC will facilitate an exchange of information about funding opportunities and eligible area contractors between NACCC and our grantees.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

The Kansas Housing Resources Corporation (KHRC) published a public notice in the Kansas Register on February 21, 2019. The public notice stated that the Annual Performance Report on the Kansas Consolidated Plan for program year 2018 was available for public review and comment March 7, through 22, 2019. The public notice indicated that the Annual Performance Report was available upon request from the KHRC. The notice and the entire Annual Performance Report was also made available on the KHRC website during the comment period. No comments were received.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

The program remained consistent with the previous year as we continue to work to improve the use of CDBG funds through defining project parameters: a) Maximize leveraging b) Assure long term sustainability c) Maximize impact by defining the problem and achieving the best solution. The only changes would be amounts categorically allocated. These are set by public hearing and program demand. Kansas targeted six separate outcomes for the use of CDBG funding; these were designated in the FY18 Action Plan.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

CR-50 - HOME 91.520(d)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations

Please list those projects that should have been inspected on-site this program year based upon the schedule in §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

The Asset Management Division of Kansas Housing Resources Corporation (KHRC) is tasked with compliance monitoring of HOME projects throughout the State of Kansas. In 2018, 135 annual reports which covered a reporting period from 1/1/17-12/31/17 were received. All 135 reports have been reviewed, with 126 satisfactorily closed. The remaining nine reports need additional information from the owner, which has been requested by KHRC.

The annual report notification letter requests a State internal owner's certification of continued program compliance, identification of board members, utility allowance calculations with proof of methodology, the Affirmative Fair Marketing Plan, financial statements when required, and plans and procedures. All documents must be reviewed prior to the report being finalized. The 2018 annual reports are due May 15, 2019.

In 2018, Asset Management staff inspected 31 different grants and completed all required compliance monitoring. Our onsite monitoring does not stop at meeting the inspection requirements; we attempt to assist owners with tenant and property related problems. Except for the CHDOs noted below, all grants were inspected with a satisfactory outcome.

The distressed list includes:

NINER – KHRC continues to struggle getting responses from this owner. KHRC makes ongoing attempts to work with the owner to ensure the tenant files are corrected and the households are qualified. Additionally, KHRC continues to follow up to ensure the physical deficiencies are corrected.

ECKAN – KHRC is currently working with the owner to ensure physical issues are corrected, the tenant files are maintained, and households are qualified. KHRC is also providing additional support regarding rent adjustments and KHRC's annual reporting requirements.

Interfaith Housing Services – KHRC is currently working with the owner to ensure physical issues are corrected, the tenant files are maintained, and households are qualified. KHRC is also providing additional support regarding rent adjustments and KHRC's annual reporting requirements.

NWKHI – KHRC is currently working with the owner to ensure physical issues are corrected, tenant data is provided per KHRC's annual report requirements and tenant files are maintained with the necessary

certifications. Additional training has been scheduled with two staff members due to the turnover they have experienced over the past year.

OTLR - KHRC is currently working with the owner, providing guidance on qualifying tenants correctly, recertifying tenants timely, updating the utility allowances and inspecting and maintaining the physical condition of the units. KHRC is also providing additional support regarding rent adjustments and KHRC's annual reporting requirements.

**Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units.
92.351(b)**

The programs continue to require an annual activity to further fair housing throughout any and all open grants. We believe that this has made our grantees more aware of fair housing issues and has promoted more creative efforts to address this important aspect of the program.

Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics

Kansas Housing Resources received a total of \$83,336.75 in program income. The allowable 10% was set aside for administration, or \$8,333.68. The remaining was committed under the first 2018 activity of TBRA. In 2018, 83.21% of the TBRA recipients were very low income, 0 - 30% of median income.

**Describe other actions taken to foster and maintain affordable housing. 91.220(k) (STATES ONLY: Including the coordination of LIHTC with the development of affordable housing).
91.320(j)**

Regarding governmental cooperation, KHRC has taken actions to coordinate all housing-related programs. The Low Income Housing Tax Credit (LIHTC) program has been coordinated with the HOME Investment Partnerships (HOME) program, the Weatherization Assistance Program, and U.S.D.A. Rural Development housing programs. The Community Services Block Grant (CSBG) program has addressed the needs of poverty households through Community Action Agencies, many of which have been Community Housing Development Organizations (CHDOs) and/or homeless prevention service providers via the Emergency Solutions Grant (ESG) program. The KHRC distributed information on lead-based paint hazards and mandated lead abatement in all of its housing programs.

KHRC created the Moderate Income Housing (MIH) Program in 2012 after the Kansas Legislature passed a bill which provided \$2 million to the State Housing Trust Fund (SHTF) for the purpose of administering and supporting housing programs. KHRC has received \$2 million each year since then. The MIH awards, which come in the form of grants and/or loans, include the development of multi-family rental units, single-family for-purchase homes, and water, sewer and street extensions. Some awards also provide

funds to finance construction costs, rehabilitate unsafe or dilapidated housing, and offer down payment and closing cost assistance to homebuyers. Infrastructure improvements will allow for the development of housing that is being financed by the private sector. In 2018, there were seven communities funded. Over the seven-year period, more than 69 awards have been made in approximately 52 communities across Kansas.

CR-55 - HOPWA 91.520(e)

Identify the number of individuals assisted and the types of assistance provided

Table for report on the one-year goals for the number of households provided housing through the use of HOPWA activities for: short-term rent, mortgage, and utility assistance payments to prevent homelessness of the individual or family; tenant-based rental assistance; and units provided in housing facilities developed, leased, or operated with HOPWA funds.

Number of Households Served Through:	One-year Goal	Actual
Short-term rent, mortgage, and utility assistance to prevent homelessness of the individual or family	300	155
Tenant-based rental assistance	150	60
Units provided in permanent housing facilities developed, leased, or operated with HOPWA funds	0	0
Units provided in transitional short-term housing facilities developed, leased, or operated with HOPWA funds	150	0

Table 14 – HOPWA Number of Households Served

Narrative

The HOPWA Program provided housing assistance to a total of 190 clients. Many of these clients accessed more than one service. The program had 60 clients who accessed the TBRA/LT program for 2018. With waiting lists around the state being two years or in some areas closed it will be imperative that we look at more clients in the LT program.

The average subsidy for clients in long-term (TBRA) assistance was \$370.00 per month. Clients on average had around \$715.00 a month in income, mainly around Social Security income. By the end of 2018, the HOPWA Program had 31 out of a possible 60 clients in the TBRA/LT program.

One hundred and fifty five accessed the Short Term Rent, Mortgage and Utility program (STRMU), with 84 clients accessing deposit assistance and 76 clients accessing transitional/homeless prevention assistance. Eight clients accessed moving assistance and three accessed emergency hotel assistance.

Utility requests continued to increase, as we received 124 requests and covered 60 clients, with an average utility bill of \$195.00. Utilities continued to be a major issue and we have attempted to work with clients on other resources as well as possible rental assistance to help extend short term assistance.

Twenty-nine clients who accessed STRMU services in 2018 will likely need STRMU services again in 2019. The number of clients for STRMU continue to increase, and the lack of other resources and limited funding for other programs make it crucial to provide assistance.

With the larger increase in clients from 190 to 244 we will continue to look at ways to increase funding either through additional grant funding or state funding. The program will look to increase staff in 2019 to meet the increased demands for housing assistance.

Short Term assistance, and primarily utility assistance, continues to be a big issue for the HOPWA program. With utility requests almost doubling in 2018 we will need to continue to update resource manuals and make sure clients are applying for the Low Income Energy Assistance Program (LIEAP). Short term funding is not meant to focus on utilities and we will need to look at clients accessing other utility assistance programs or look at long term assistance as possible ways to help client stay more stable.

The Long Term Tenant Based Rental Assistance (TBRA) will continue to be one of the main focuses the HOPWA program will have each year. With the lack of permanent housing options in some areas, it will be necessary to add more clients into the TBRA/LT program. We continue to strive for at least 30 to 40 clients per month in TBRA/LT.

Supportive services will continue to be in demand and work hand in hand with housing services to help clients with stability. It will be necessary to work on finding additional resources around the state to help clients with nutrition, transportation, and counseling.

The HOPWA Program provides information to both clients and landlords regarding both their rights and responsibilities. HOPWA has provided over 1,500 brochures to clients and landlords describing the Fair Housing Act and the Tenant Rights and Responsibilities.

The HOPWA Program maintains contacts with clients in regards to supportive services and housing assistance. The program provides housing and supportive services information, including food pantry and subsidized housing referrals to over 1,000 clients and immediate family.

CR-56 - HTF 91.520(h)

Describe the extent to which the grantee complied with its approved HTF allocation plan and the requirements of 24 CFR part 93.

A formal system was used to evaluate, select, and fund applications for deferred loans. The selection criteria were designed to facilitate an objective assessment of need for the proposed housing, the applicant's capacity to develop and manage affordable housing, and the specific characteristics of the proposed activity (including but not limited to location and site planning, building design and construction, affordability, cost reasonableness, and financial sustainability). The application was posted on the website www.kshousingcorp.org.

KHRC did not distribute HTF funds through local jurisdiction subgrantees, but made funding available statewide through a competitive application process to eligible recipients whose applications addressed the criteria outlined in the allocation plan as well as priority housing needs as identified in the state's Consolidated Plan.

HTF funds were offered as a loan, with payments deferred for the duration of the statutory affordability period, provided the activity is completed per the written agreement, and remains compliant with the terms of both the statute and written agreement for the duration of that affordability period.

Eligible activities under Housing Trust Fund (HTF) were acquisition and/or rehabilitation of existing rental housing and new construction of rental housing. In compliance with 24CFR Part 93, HTF-assisted rental units will be subject to rent and income restrictions contained in that statute for a minimum of 30 years.

KHRC provided HTF funding to rental development activities which supported the objectives of the HTF program to provide affordable housing to extremely-low-income households by expanding and maintaining the supply of decent, safe, sanitary, accessible, and affordable rental housing and leveraging private sector participation.

KHRC did not allocate HTF funds for eligible operating cost assistance and reserves in accordance with 24 CFR 93.201(e) but retains the option to do so with future allocations.

Tenure Type	0 – 30% AMI	0% of 30+ to poverty line (when poverty line is higher than 30% AMI)	% of the higher of 30+ AMI or poverty line to 50% AMI	Total Occupied Units	Units Completed, Not Occupied	Total Completed Units
Rental	4	0	0	4	0	4
Homebuyer	0	0	0	0	0	0

Kansas Emergency Solutions Grant Program (KESGP) Supplemental Information

Homeless Program Implementation - Emergency Solutions Grant (ESG) funds allocated to the State of Kansas for the federal fiscal year 2017 and 2018 were made available to units of general local government (city and county). Local governments can then distribute part or all of their ESG funds to private nonprofit organizations for approved activities. Sub recipient nonprofit organization must be tax exempt under Section 501 (c) (3) of the Internal Revenue Code. The organizations must have an acceptable accounting system, have a voluntary board, and practice non-discrimination in hiring practices and the provision of services.

Continuum of Care Approach - The State of Kansas supports a continuum of care approach among State ESG recipients. The Continuum of Care goals include affordable, permanent housing and homeless services that enable homeless individuals and families to reach the maximum degree of self-sufficiency possible. The ESG application required potential sub recipients to describe which of the following objectives fit the proposed projects; suitable living environment, decent affordable housing, and creating economic opportunity. Applicants must also select which the following outcomes will the project meet; availability, accessibility, affordability and sustainability.

Continuum of Care Planning - KHRC partners with the Balance of State (BoS) Continuum of Care (CoC) for a coordinated, strategic approach to planning for programs that assist individuals and families who are homeless. KHRC requires all ESG recipients to be active in their local and statewide CoC activities. As required by HUD regulations all ESG recipients are required to participate in a Homeless Management Information System (HMIS). KHRC as the HMIS lead agency for the BoS CoC ensures that all recipients

receiving Kansas ESG funds are collecting homeless data and entering the data into the HMIS or a comparable database.

Emergency Shelters - In FY2018, ESG funding was provided to seven (7) emergency shelters and twelve (12) emergency shelters for victims of domestic violence. This funding provided 488 beds for homeless individuals. During FY2018, a total of 1,238 households consisting of 1,878 persons. In FY2018 Street Outreach assisted a total of 67 households consisting of 71 persons.

Rapid Re Housing - Rapid Re Housing - Rapid Re Housing - In FY2018, Rapid Re Housing assistance was provided to 266 households consisting of 564 persons. A total of \$529,823 was expended for Rapid Re Housing. This consisted of \$344,385 for rental assistance, \$61,812 for housing relocation service and stabilization (financial) and \$123,626 for housing relocation service and stabilization (services).

Homeless Prevention - Homeless Prevention - In FY2018, Homeless Prevention assistance was provided to 89 households consisting of 214 persons. A total of \$154,566 was expended for Homeless Prevention. This consisted of \$85,012 for rental assistance, \$23,184 for housing relocation service and stabilization (financial) and \$46,370 for housing relocation service and stabilization (services).
