

2025 Kansas Amended QAP Summary of Comments

KHRC has reviewed and considered all submitted comments, and the final changes made throughout the 2025 Amended QAP are an attempt to continue to represent our core values and best serve the affordable housings needs across Kansas. The following is a summary of the comments received and KHRC's decision and rationale related to the comments. The headings correspond to QAP section headings.

4% LIHTC Limits and Set-Asides

Summary of Comments: Rather than two \$8M rounds, why not apply the full \$16M to round 1 to make it more fair to developers that already spent time and resources to submit under the original QAP?

KHRC Response: *While KHRC considered that option, we determined that making all the resources available in Round 1 would not be fair to those applicants that relied upon the schedule originally set out in the 2025 QAP and planned to apply in Round 2.*
