

## Site Review Checklist

The Moderate Income Housing Grant (MIH) and Kansas Housing Investor Tax Credit (KHITC) are not subject to HUD or other Federal requirements related to environmental review or conditions. However, sites selected for MIH and/or KHITC construction or rehabilitation activities are expected to be free of environmental hazards or potential adverse environmental impact. This checklist identifies some, but not all of the factors that may require additional site review.

## Site Evaluation – Environmental Factors

<b>Airport Hazards</b> – Is the site adjacent to or in a Clear Zone (CZ) or Accident Potential Zone (APZ) of a civilian or military air facility?	Yes    No <input type="checkbox"/> <input type="checkbox"/>	<b>Notes:</b>
<b>Air Quality</b> – Are there industrial or other activities near the site that could create an air quality concern?	Yes    No <input type="checkbox"/> <input type="checkbox"/>	<b>Notes:</b>
<b>Contamination and Toxic Substances</b> -Is there evidence on or near the site of conditions that would indicate a concern about soil contamination, or other potentially toxic nearby activities (e.g., chemical manufacturing, dry cleaning, oil refining, etc.)?	Yes    No <input type="checkbox"/> <input type="checkbox"/>	<b>Notes:</b>
<b>Endangered Species</b> – Is there evidence that the proposed activity may disturb critical habitat of endangered or protected species (e.g., significant disturbance of woodlands, bodies of water, etc.)?	Yes    No <input type="checkbox"/> <input type="checkbox"/>	<b>Notes:</b>
<b>Explosive and Flammable Hazards</b> – is the site near any potential explosive or flammable operations, including above ground storage tanks (ASTs)?	Yes    No <input type="checkbox"/> <input type="checkbox"/>	<b>Notes:</b>
<b>Farmland Protection</b> - will the proposed activity result in the conversion of important farmland?	Yes    No <input type="checkbox"/> <input type="checkbox"/>	<b>Notes:</b>
<b>Floodplain</b> – will any part of the development occur in a floodplain or flood hazard zone?	Yes    No <input type="checkbox"/> <input type="checkbox"/>	<b>Notes:</b>
<b>Historic Preservation</b> – does the activity involve, or will it have a potential adverse impact on any historic structure? (If yes, consultation from SHPO may be indicated).	Yes    No <input type="checkbox"/> <input type="checkbox"/>	<b>Notes:</b>

<b>Noise</b> – If the activity involves new residential construction, is the site adjacent to close to a major trafficway, active railway, airport, or other source of noise?	Yes    No <input type="checkbox"/> <input type="checkbox"/>	<b>Notes:</b>
<b>Wetlands Protection</b> – is any part of the proposed site in a designated wetland, or will site development adversely impact an adjacent wetland?	Yes    No <input type="checkbox"/> <input type="checkbox"/>	<b>Notes:</b>
<b>OTHER SITE CONSIDERATIONS</b>		
Does the proposed activity involve rehabilitation or conversion of buildings constructed before 1978?  <i>If so, the development must comply with EPA and KDHE requirements regarding the identification and mitigation of potential lead-based paint hazards.</i>	Yes    No <input type="checkbox"/> <input type="checkbox"/>	<b>Notes:</b>
Are there any other adverse conditions or considerations? (If needed, continue on a separate page)	Yes    No <input type="checkbox"/> <input type="checkbox"/>	<b>Notes:</b>
