## LOWER BILLS. BEAT THE CHILLS.

Weatherization improves heating and cooling efficiency and energy savings by ensuring a home holds in heat and air conditioning while keeping hot and cold air out. The Weatherization Assistance Program is offered at **no charge** to income-eligible families. Weatherization may include:

- + SEALING DRAFTS AND AIR LEAKS
- + CAULKING DOORS AND WINDOWS
- + WEATHERSTRIPPING
- + TESTING, CLEANING, AND REPAIRING HEATING AND COOLING SYSTEMS AND WATER HEATERS
- + INSULATING CEILINGS, WALLS, FLOORS, AND FOUNDATIONS
- + UPGRADING LIGHTING, FANS, AND REFRIGERATORS

Weatherization service providers in Kansas

**North Central Regional Planning Commission**  
 (800) 432-0303 | ncrpc.org

**East Central Kansas Economic Opportunity Corporation**  
 (888) 833-0832 | eckan.org

**Northeast Kansas Community Action Program**  
 (785) 742-2222 ext. 109 | nekcap.org

**South Central Kansas Economic Development**  
 (316) 262-7035 | sckedd.org

To apply, contact the weatherization service provider located in your area. After the application is accepted, a weatherization specialist will conduct a home energy audit to identify needs. They will then complete the necessary work and conduct a post-weatherization audit to assure quality. All at **no charge** to income-eligible families.
