Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the business-type activities and each major fund of the Kansas Housing Resources Corporation (KHRC), a component unit of the state of Kansas, as of and for the year ended June 30, 2026, and the related notes to the financial statements, which collectively comprise KHRC's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and each major fund of KHRC, as of June 30, 2026, and the respective changes in financial position, and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of KHRC and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about KHRC's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of KHRC's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about KHRC's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of KHRC's Proportionate Share of the Net Pension Liability, Schedule of KHRC's Pension Contributions, Schedule of Changes in KHRC's Total OPEB Liability and Related Ratios, and Schedule of KHRC's OPEB Contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit for the year ended June 30, 2026, was conducted for the purpose of forming opinions on the financial statements that collectively comprise KHRC's basic financial statements. The KHRC Operations Statement of Revenues and Expenses by Program, and Changes in Net Position (2026), and State Housing Trust Fund Statement of Revenues and Expenses by Program, and Changes in Net Position (2026) for the year ended June 30, 2026 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended June 30, 2026 and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the KHRC Operations Statement of Revenues and Expenses by Program, and Changes in Net Position (2026), and State Housing Trust Fund Statement of Revenues and Expenses by Program, and Changes in Net Position (2026) are fairly stated, in all material respects, in relation to the basic financial statements as a whole for the year ended June 30, 2026.

We also previously audited, in accordance with GAAS, the basic financial statements of KHRC as of and for the year ended June 30, 2025 (not presented herein), and have issued our report thereon dated September 19, 2025, which contained unmodified opinions on the respective financial statements of the business-type activities and each major fund. The KHRC Operations Statement of Revenues and Expenses by Program, and Changes in Net Position (2025) and State Housing Trust Fund Statement of Revenues and Expenses by Program, and Changes in Net Position (2025) for the year ended June 30, 2025, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2025 basic financial statements. The information was subjected to the auditing procedures applied in the audit of the 2025 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements or to those financial statements themselves, and other additional procedures in accordance with GAAS.

In our opinion, the KHRC Operations Statement of Revenues and Expenses by Program, and Changes in Net Position (2025) and State Housing Trust Fund Statement of Revenues and Expenses by Program, and Changes in Net Position (2025) are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2025.

Report on Summarized Comparative Information

We have previously audited KHRC's 2025 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the business-type activities and each major fund in our report dated September 19, 2025. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2025, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Revenues, Expenses, and Operating Income (Loss) by Fund but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Board of Directors
Kansas Housing Resources Corporation

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 28, 2026, on our consideration of KHRC's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of KHRC's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering KHRC's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2026**

The annual financial report of the Kansas Housing Resources Corporation (KHRC) consists of three sections: basic financial statements, required supplementary information, and supplementary information. This section of the report presents management's discussion and analysis (MD&A) of financial position and changes in financial position for the fiscal year ended June 30, 2026.

KHRC is a self-supporting entity and utilizes enterprise fund reporting; accordingly, the financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. This analysis should be read in conjunction with the Independent Auditors' Report, audited financial statements, and accompanying notes.

FINANCIAL HIGHLIGHTS

KHRC reports separately KHRC Operations and activities of the State Housing Trust Fund (SHTF). This separate reporting provides an increased level of understanding for KHRC Operations and SHTF activities. KHRC Operations are defined as fee for service and Federal grant administration, while SHTF activities include funding KHRC receives based solely on its designation as the provider of housing services for the State of Kansas. KHRC administers the SHTF on behalf of the State of Kansas.

KHRC continues to utilize Federal and State government programs that serve its mission and provide resources leveraging its net position with other resources to finance affordable rental and owner-occupied housing for Kansans. KHRC has had decreasing revenues from expending Federal sources for COVID-19 related stimulus funding and has been tasked with effectively and efficiently administering new programs while also seeing increased funding in many existing programs. KHRC's challenge continues to be identifying longer term funding opportunities to meet Kansans' housing needs.

KHRC OPERATIONS

- Total assets were \$33.3 million at June 30, 2026, a decrease of \$2.0 million or 5.6 percent from fiscal year 2025 due primarily to a decrease in cash and cash equivalents of \$4.6 million, partially offset by an increase in accounts receivable of \$0.9 million and net capital assets of \$1.2 million.
- Total liabilities were \$15.8 million at June 30, 2026, a decrease of \$4.1 million, or 20.4 percent, from fiscal year 2025 due primarily to a decrease in unearned revenue of \$4.2 million and a reduction in the net pension liability of \$0.7 million, partially offset by an increase in lease and SBITA liabilities.
- The change in deferred outflows and inflows of resources is due to updated actuarial assumptions, contributions, and other information relating to the Kansas Public Employees Retirement System (KPERS) Cost-Sharing Multiple-Employer Defined Benefit Pension Plan and the KPERS-sponsored OPEB Plan.
- Net position was \$18.3 million at June 30, 2026, an increase of \$0.9 million, or 5.2 percent, from fiscal year 2025. The increase in net position is discussed below.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2026**

- Total revenues were \$122.8 million in fiscal year 2026, an increase of \$2.3 million, or 1.9 percent, from fiscal year 2025. Excluding federal program revenues, total revenues were \$13.2 million in fiscal year 2026, a decrease of \$0.2 million, or 1.7 percent, from fiscal year 2025, as increases in fees for services and contributions and donations were more than offset by decreases in grant administration revenues and investment income.
- Total expenses (including transfers) were \$121.9 million in fiscal year 2026, an increase of \$1.8 million, or 1.5 percent, from fiscal year 2025. Excluding federal program expenses, total expenses were \$12.3 million in fiscal year 2026, a decrease of approximately \$0.7 million, or 5.6 percent, from fiscal year 2025, due primarily to decreases in salaries and benefits, expensed furniture and equipment, and program income grant expenses.
- KHRC Operations had an operating loss of approximately \$0.2 million in fiscal year 2026, compared to an operating loss of \$1.1 million in fiscal year 2025. The improvement was primarily attributable to increased fee-for-service revenues and lower non-federal operating costs.

STATE HOUSING TRUST FUND

- Total assets were \$60.0 million at June 30, 2026, a decrease of \$1.5 million, or 2.4 percent, from fiscal year 2025 due primarily to a decrease in cash and cash equivalents of \$4.2 million, partially offset by an increase in program loans receivable of \$2.2 million and investments of \$0.5 million.
- Total liabilities were \$0.4 million at June 30, 2026, an increase of \$0.2 million, or 82.4 percent, from fiscal year 2025, due primarily to an increase in grants and refunds payable.
- Net position was \$59.6 million at June 30, 2026, a decrease of \$1.7 million, or 2.7 percent, from fiscal year 2025. The change in net position is discussed below.

YEAR ENDED JUNE 30, 2026

- Total revenues and transfers were \$6.6 million in fiscal year 2026, a decrease of \$11.3 million, or 62.9 percent, from fiscal year 2025. The decrease was primarily attributable to the absence of \$12.0 million of state program revenues recognized in fiscal year 2025. Excluding state program revenues and transfers, total revenues were approximately \$6.6 million in fiscal year 2026, an increase of approximately \$0.7 million, or 12.3 percent, from fiscal year 2025.
- Total expenses were \$8.3 million in fiscal year 2026, a decrease of \$5.4 million, or 39.4 percent, from fiscal year 2025. Excluding state program expenses, total expenses were approximately \$4.1 million in fiscal year 2026, an increase of approximately \$0.6 million, or 15.9 percent, from fiscal year 2025, primarily due to higher program expenses and personnel-related costs.
- The SHTF had an operating loss of \$3.4 million in fiscal year 2026 compared to operating income of \$1.6 million in fiscal year 2025. The decline was primarily attributable to the absence of state program revenues recognized in the prior year.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

The *Statement of Net Position*, similar to a balance sheet, answers the question, “How is our financial health at the end of the year?” This statement includes all assets, deferred outflows of resources, liabilities and deferred inflows of resources of KHRC, both financial and capital, short-term and long-term, using the accrual basis of accounting and economic resources measurement focus, which is similar to the accounting used by most private-sector companies. The resulting net position presented in the statement is displayed as restricted or unrestricted. Assets are restricted when their use is subject to external limits such as legal agreements or statutes. Assets falling outside this category are characterized as unrestricted. Over time for KHRC Operations, changes in net position may serve as a useful indicator of whether its financial position is improving or deteriorating. In contrast, the State Housing Trust Fund is designed to be a conduit for the deposit and subsequent payment or “pass-through” of housing funds to serve housing needs of the citizens of Kansas; thus, its financial position should not be evaluated from that perspective.

All of the current year’s revenues and expenses of KHRC are accounted for in the *Statement of Revenues, Expenses, and Changes in Net Position*. This statement measures the activities of KHRC’s operations over the past year and presents the excess of revenues over expenses and changes in net position. It can be used to determine whether KHRC has successfully recovered all of its costs through externally funded programs and other revenue sources. This statement helps answer the question, “Is KHRC as a whole better off or worse off as a result of the year’s activities?”

The primary purpose of the *Statement of Cash Flows* is to provide information about the sources and uses of KHRC’s cash and the change in cash balance during the reporting period. This statement reports cash receipts, cash payments, and net changes resulting from operating, capital and related financing, noncapital financing, and investing activities. It provides answers to such questions as “Where did cash come from?,” “What was cash used for?,” and “What was the change in cash balance during the reporting period?”

Analysis of Assets, Liabilities, and Net Position

Restricted current assets decreased \$7.7 million due primarily to a decrease in restricted cash and cash equivalents of \$4.2 million, partially offset by increases in restricted program loans receivable and accrued interest receivable.

Unrestricted current assets increased \$0.8 million primarily due to an increase in accounts receivable.

Net capital assets increased \$1.2 million. This was the net effect of approximately \$1.7 million in capital asset additions, offset by current year depreciation and amortization expense of approximately \$0.5 million and disposals of approximately \$0.3 million.

Restricted current liabilities increased \$1.0 million due primarily to an increase in grants and refunds payable.

Unrestricted current liabilities decreased \$4.7 million primarily due to a decrease in unearned revenue.

Unrestricted noncurrent liabilities decreased \$0.2 million primarily due to a decrease in the net pension liability of approximately \$0.7 million, offset by the recognition of additional lease and SBITA liabilities.

Total net position decreased \$0.8 million from fiscal year 2025 to 2026 due to the changes discussed below in the Analysis of Revenues, Expenses, and Changes in Net Position.

Analysis of Revenues, Expenses, and Changes in Net Position

The majority of KHRC's revenue is from Federal and State program revenues, fees for services, grant administration/grant income, and recognized match income, which produce 96.5 percent of KHRC's revenues.

Fees for services increased \$0.9 million due primarily to increased housing compliance, asset management, allocation fee, and conference-related revenues.

Grant Administration/Grant Income decreased \$0.8 million, primarily due to decreases in federal program administration revenues.

Recognized match income and recognized match expense increased \$0.2 million, driven by higher qualifying HOME and ESG match activity.

Federal program revenues and expenses increased \$2.5 million due to increased federal pass-through activity. Federal program revenues and expenses represent subsidy (pass-through) proceeds and other financial assistance received by KHRC and transferred to or spent on behalf of secondary recipients. Federal program revenues equal federal program expenses, resulting in no net effect on KHRC's financial statements.

Receipt of State program funds (State program revenues) represent subsidy (pass-through) grant proceeds received by KHRC and transferred to or spent on behalf of secondary recipients. However, unlike Federal funds which are drawn and recorded as Federal program revenue and Federal program expense when the Federal program requirements are met (spent) by secondary recipients, State program funds are recognized as revenue upon receipt from the State and recognized as expense when transferred to or spent on behalf of secondary recipients in accordance with GASB Statements No. 24 and 33 (Note 1). Since State funding is generally received in one lump sum at the beginning of a fiscal year and spent over multiple fiscal years, timing differences result. For example, since 2013, \$2.0 million has been received on an annual basis; however, \$380,524, \$1.3 million, \$2.0 million, \$1.0 million, \$1.8 million, \$2.1 million, \$1.9 million, \$2.3 million, \$1.8 million, \$2.0 million, \$1.5 million, \$7.2 million, and \$10.2 million was spent in fiscal years 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, and 2025 respectively. In fiscal year 2026, state program expenses were \$4.2 million. The balance of the MIH funds will be spent in subsequent periods.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2026**

Transfers in and transfers out increased from \$299,348 in fiscal year 2025 to \$604,280 in fiscal year 2026. The transfers included amounts from the State Housing Trust Fund to KHRC Operations to support program expenditures and administrative activities, including HOME, LIEAP, CSBG, ESG, and HMIS activities. Additional transfers were made between funds to align available funding with program expenditures incurred during the fiscal year.

NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2026**

NOTE 1 REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

Kansas Housing Resources Corporation (KHRC) was established pursuant to Executive Reorganization Order No. 30 dated February 10, 2003 (ERO 30), and 2003 Kansas Senate Bill No. 285 (SB 285), which transferred the Division of Housing of the Kansas Department of Commerce and Housing to the Kansas Development Finance Authority (KDFA), effective July 1, 2003 to be organized in accordance with the Kansas Development Finance Authority Act (KDFA Act), K.S.A. 74-8901 et seq., as amended. KHRC was incorporated, effective July 1, 2003, by the KDFA to be a subsidiary corporation in accordance with the provisions of K.S.A. 74-8904 (v). That statute further provides that the Board members of KDFA shall constitute all the Board members of KHRC, and KDFA is the sole member of KHRC. KHRC is an independent instrumentality of the State of Kansas and a public body politic and corporate.

KHRC's mission is to enhance Kansas communities with housing opportunities. This goal is achieved through using a variety of strategies and approaches, including increasing home ownership opportunities, leveraging the construction of affordable rental housing, promoting energy efficiency improvements for owner-occupied and rental housing, providing affordable housing through rental assistance to low-income families and senior citizens, and creating housing opportunities for underserved persons and communities.

To accomplish its objectives, KHRC has the rights, powers, privileges, and duties conferred by ERO 30, SB 285, and its articles of incorporation and bylaws. These include making bylaws and adopting rules and regulations to carry out the purposes of KHRC; acquiring, holding, and disposing of real and personal property for its corporate purposes; appointing officers, agents and employees; entering into contracts and agreements; collecting fees and charging for its services; accepting gifts, grants, loans and other aid; investing and borrowing moneys; procuring insurance; and providing technical assistance and advice to the State of Kansas or political subdivisions of the State.

Accounting principles generally accepted in the United States of America require that the reporting entity include: (1) the primary government, (2) organizations for which the government is financially accountable, and (3) other organizations for which the nature and significance of their relationship with the primary government are such that the exclusion would cause the reporting entity's financial statements to be misleading. KHRC is financially accountable to its Board of Directors, appointed by the Governor of Kansas, and the State exercises oversight responsibility on financial interdependency and accountability for fiscal matters and scope of public service. KHRC is included in the State's financial reporting entity, and KHRC's transactions are reported in the State's Annual Comprehensive Financial Report as a component unit.

KHRC does not have any component units as defined by the Governmental Accounting Standards Board.

NOTE 1 REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

Financial Statement Presentation

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB).

The basic financial statements include certain prior-year summarized comparative information in total, but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with KHRC's financial statements for the year ended June 30, 2025, from which the summarized information was derived.

Basis of Accounting

KHRC's activities meet the definition of an enterprise fund because it is the intent of KHRC to recover, primarily through user charges and grant reimbursement, the cost of providing goods or services to the general public. These financial statements present the total business-type activities and the major enterprise funds of KHRC.

Transactions are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of the funds are included on the statement of net position. The operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in fund net position. Revenues are recognized when earned and expenses are recognized when the liability is incurred in accordance with the accrual basis of accounting.

KHRC administers grants and Federal and State assistance programs, representing "pass-through" financial assistance, on behalf of secondary recipients. In accordance with GASB Statement No. 24, Accounting and Financial Reporting for Certain Grants and Other Financial Assistance, KHRC recognizes financial activity related to pass-through grants and financial assistance as revenues and expenses of KHRC.

Grants and other financial assistance received from Federal and State governments and other third parties are recognized as operating revenue when all applicable eligibility requirements have been met in accordance with GASB No. 33, *Accounting and Financial Reporting for Non-Exchange Transactions*.

KHRC Operations

KHRC defines *KHRC Operations* as fees for services, Federal grant administration, and other activities that have the characteristics of an exchange transaction.

State Housing Trust Fund

The *State Housing Trust Fund* (SHTF) was established by House Bill No. 2517 as a vehicle to deposit housing funds and provide a necessary match for the HOME program.

**KANSAS HOUSING RESOURCES CORPORATION
(A COMPONENT UNIT OF THE STATE OF KANSAS)
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2026**

**NOTE 1 REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

State Housing Trust Fund (Continued)

Now codified at KSA 74-8959, the SHTF legislation contains few requirements and funding sources and essentially created a discretionary, interest-bearing trust account for the purpose of housing programs and services. The Statute allows KHRC, as the administrator of this fund, to maintain and invest funds outside of the State Treasury and to apply for and receive grants, gifts, and donations.

KHRC defines SHTF funding sources as funding KHRC receives based solely on its designation as the provider of housing services for the State of Kansas. SHTF sources generally do not include federal grant administration/grant income or other activities that have the characteristics of an exchange transaction.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Related Parties

KHRC reimbursed KDFA for shared board-related and professional service expenses incurred during the year. KHRC also invoices KDFA for professional services and supplies, goods and services purchased on behalf of KDFA. KHRC purchases goods, supplies and services from State agencies or entities and utilizes State contracts for administrative purposes.

Programs

The following is a brief description of significant programs financed by Federal, State and SHTF-funded grants or agreements over which KHRC exercises fiscal and administrative control with Supplementary Information program references in parentheses:

- Housing Development Program (Housing Development) – The Housing Development Program is designed to secure private equity capital for the development of affordable rental housing through tax incentives (i.e., tax credits) rather than direct subsidies. Enacted in the Tax Reform Act of 1986, the Tax Credit is a 10-year Federal tax credit against a taxpayer's ordinary income tax liability available to individuals (directly or through partnerships) and corporations who acquire or develop and own the affordable rental housing properties. The Tax Credit historically provides as much as 75-80% of the total development cost, which reduces the amount of debt financing in affordable rental housing developments. This allows lower rents and greater flexibility. KHRC receives application fees and fees for services from developers and owners who participate in the Housing Development (Tax Credit) program.

Programs (Continued)

- Housing Compliance Program (Housing Compliance) – The Housing Compliance Program exists to service and oversee project performance for developments that received an allocation of Housing Tax Credits, Private Activity Bonds, and/or HOME Rental Housing Development, Tax Credit Assistance Program and Credit Exchange Program dollars. The program is responsible for the development, implementation, and maintenance of policy, procedures, and processes, and provides enhanced asset management features and monitoring oversight to help ensure initial and ongoing project viability for the term of the contractual agreement. The program is also involved in budget analyses, reserve draws, leasing and marketing, monthly and annual reporting, project stabilization, project monitoring through onsite reviews, training and technical assistance, conflict resolution, tenant complaints and other areas as necessary to ensure compliance with Federal and State laws. On the preservation side, Rental Compliance works with owners to: limit and/or mitigate risk; address overleveraged properties and options other than foreclosure; maximize utility cost savings through green building and energy efficient technologies; comply with fair housing, 504, and ADA requirements; accomplish project stabilization for distressed properties; provide outreach and education with other Affordable Housing Programs and local units of government; deliver technical assistance that aids KHRC partners in the exploration and evaluation of other programs, resources, and opportunities that may be available to meet ongoing preservation needs; and minimize the number of properties opting out of programs by offering incentives to remain in the programs. KHRC receives fees from owners for annual compliance monitoring, asset management, and other miscellaneous fees for services.
- KHRC Corporate (KHRC Corporate) – Activity includes miscellaneous fees for services (e.g., manufactured housing license fees), KHRC Operations-funded program loan interest, and other miscellaneous corporate revenues and expenses.

Federal Programs

- Contract Administration Program (Contract Administration) – KHRC is the Section 8 Contract Administrator for project-based Section 8 properties in Kansas. The program also provides the Section 8 housing assistance payment to participating owners on behalf of eligible tenants to provide decent, safe, and sanitary housing at rents they can afford. KHRC receives basic administrative fees for services from HUD to administer the program. See Note 15 for additional information on the status of KHRC's Section 8 Contract with HUD.

Federal Programs (Continued)

- HOME Investment Partnership Program (HOME) – HOME is funded through HUD and was created by Congress as part of the National Affordable Housing Act of 1990. The intent of the HOME Program is to provide decent, affordable housing to lower-income households, expand the capacity of nonprofit housing providers, strengthen the ability of state and local governments to provide housing, and leverage private-sector participation. KHRC administers the Federal funds and required matching funds to carry out program activities related to down payment assistance, rental housing development, and tenant based rental assistance. KHRC is reimbursed for eligible costs associated with administration of the program.
- Weatherization Assistance Program (DOE-WAP) – DOE-WAP is a long-term formula grant program funded by the U.S. Department of Energy (DOE). The purpose of the program is to make low-income households in income-eligible, single or multi-family dwellings, including manufactured homes, more energy efficient, thereby reducing the utility bills of these families. Funds may be used for air leakage reduction, incidental repairs, health and safety measures, furnace and cooling system repair/replacement, insulation, and replacement of inefficient refrigerators. KHRC receives partial reimbursement of eligible costs associated with administration of the program.
- Low-Income Energy Assistance Program (LIEAP-WAP) – KHRC receives and administers up to 15% of a portion of the State of Kansas' LIEAP grant, a block grant program, funded by Health and Human Services (HHS) for the same purposes as the DOE-WAP program. KHRC receives reimbursement of eligible costs associated with administration of the program.
- Community Services Block Grant (CSBG) – CSBG is a formula grant funded by HHS and enables local CSBG entities to provide a range of services and activities having a measurable and potentially major impact on causes of poverty in the community. Services include the following areas: employment, education, making better use of available income, housing, emergency services, nutrition, and providing linkages to other community resources. KHRC receives reimbursement of eligible costs associated with administration of the program.
- Emergency Solutions Grant Program (ESG) – ESG is a formula grant funded by HUD and provides assistance to units of local government or nonprofit organizations to improve the quality of existing emergency homeless shelters, to help meet the costs of operating emergency shelters, and to provide certain essential social services to homeless individuals. KHRC receives partial reimbursement of eligible costs associated with administration of the program.

- Homeless Management Information Systems (HMIS) Program – HMIS is funded by HUD and provides a database management system to gather unduplicated client-level data on the extent of homelessness in Kansas to improve the effectiveness of homeless shelters and service delivery systems. KHRC receives partial reimbursement of eligible costs associated with administration of the program.
- National Housing Trust Fund Program (NHTF) – NHTF is an affordable housing production program that complements existing Federal, state and local efforts to increase and preserve the supply of decent, safe and sanitary affordable housing for extremely low and very low-income households, including homeless families. NHTF funds will be awarded with the HOME and LIHTC awards. KHRC receives reimbursements of eligible costs associated with administration of the program.
- Kansas Emergency Rental Assistance Program (KERA) – KERA is funded through the federal Coronavirus Response and Relief Supplemental Appropriations Act of 2021. The KERA program provides rent, utility and internet assistance to households experiencing financial hardship as a result of the COVID pandemic. KHRC receives reimbursement of eligible costs associated with administration of the program. The programs were funded under two rounds of funding.
- Kansas Homeowner Assistance Fund (HAF) – HAF is funded through the is funded through the American Rescue Plan Act (ARPA) of 2021. The program provides financial relief to homeowners financially impacted by the COVID pandemic.
- Moderate Income Housing Program American Rescue Plan Act (MIH ARPA) – The MIH Program, that is traditionally funded by the State of Kansas, was funded by the American Rescue Plan Act. The Kansas Legislature made \$20,000,000 in ARPA funds available for the development of moderate income housing in rural communities through a grant agreement executed between KHRC and the Recovery Office on July 5, 2022. Those funds are awarded to projects through a series of RFPs issued through KHRC's Moderate Income Housing (MIH) program, with development activities subject to MIH requirements.
- Housing Support Grant – The DCF Housing Support Program is a grant funded by DCF. DCF awarded Kansas Housing \$10 million in TANF Housing Support funds for two years with a potential for renewing for two additional years. The Housing Support funds will provide housing stabilization services to eligible families with children across the state. KHRC has subawarded the Housing Support funds to four partner agencies to serve all 105 counties. The partner agencies include the City of Topeka, United Way of the Plains, Metro Lutheran Ministries, and the Kansas Statewide Homeless Coalition. Each partner will provide the Housing Support core services designed to help homeless families and those at risk of becoming homeless with services and short-term rent assistance. This program will support families in stabilizing in permanent rental housing.

- Section 811 - KHRC serves as the grantee for the Section 811 Project Rental Assistance (811 PRA) grant. This grant provides project based rental assistance to extremely low-income people with disabilities requiring long-term services and supports. Administrative costs are allowable at a rate of up eight percent (8%) of the total project rental assistance awarded.

State Housing Trust Fund Programs

- General State Housing Trust Fund (General SHTF) – Activity includes miscellaneous revenues, program loan interest income and other miscellaneous expenses incurred as the housing administrator for the State of Kansas.
- Kansas Housing Conference (KHC) – The KHC is a state-wide annual conference for elected officials, housing and community development leaders, business professionals, developers, and other stakeholders dedicated to creating innovative housing solutions for all Kansans. KHC activity represents revenues and expenses associated with the annual conference.

State Housing Trust Fund Programs (Continued)

- Moderate Income Housing Program (MIH) – The MIH Program funded by the State of Kansas provides \$2.0 million per year for fiscal years 2013 through 2026 for loans and grants to cities or counties for infrastructure or housing development in rural areas. In 2024, an additional \$20.0 million was funded by the State, bringing the total 2024 funding to \$22.0 million.
- Kansas Accessibility Modification and Emergency Repair Program (KAMP/ERP) – The KAMP/ERP program provides awards to existing weatherization agencies to facilitate weatherization client repairs with a traditional grant rather than a savings and education program. KAMP/ERP repair funding allows federally funded weatherization measures to move forward. Funding is provided by transfers from KHRC Operations or available SHTF funds.
- Kansas Affordable Housing Tax Credit State LIHTC (KS Affordable Housing TC State LIHTC) – During the 2022 Legislative Session House Bill 2237 was passed and signed into law. New Sections 1 – 6 of the Bill, now K.S.A. 2022 Supp. 79-32,304 through 79-32,309, create the Kansas Affordable Housing Tax Credit Act. The tax credit will be for each qualified development for each year of the credit period, in an amount equal to the federal tax credit allocated or allowed by the Kansas Housing Resources Corporation to such qualified development. The Kansas Housing Resources Corporation is required to issue an allocation certificate to an owner of a qualified development receiving a credit under the Affordable Housing Tax Credit Act, to be issued simultaneously with issuance of federal form 8609, related to federal tax credits.
- Kansas Investor Tax Credit (KS Housing Investor TC) – Beginning in 2022, the Kansas Legislature made available a state income tax credit to developers and builders of new housing in rural communities. The tax credit is a per-unit amount that is indexed for small, medium and large counties (\$35,000, \$32,000 or \$30,000 per unit). The legislation requires that a minimum of 2.5M credits be allocated to small and medium-sized counties, with the balance available to larger (pop. Of 8,000+) counties. The credit may roll over one calendar year from the allocation year, with investors having four years to claim the credit against their tax liability. After the initial issuance, the credits may be sold or otherwise transferred to other eligible taxpayers, with no limit on the number of transfers.
- Rural Housing Revolving Loan Program – The Legislature has made \$20,000,000 available to establish a Revolving Loan Fund to support the development of housing and housing infrastructure through loans to cities and counties. The initial allocation of \$20,000,000 is for rural communities. It is anticipated that the first loans will be made in late 2024 or early 2025. \$7,250,000 of this funding was moved to northwest Kansas housing economic development funds per Senate Bill 28 section 68 (p). Additionally, as provided in Senate Bill 28, the loans through this program may now also go to not-for-profit organizations focused on housing development, and for-profit and not-for-profit builders and developers, and some funds may also be used in some urban areas.

- Revolving Loan Program – The Legislature made \$20,000,000 available for the Housing Revolving Loan program to support the development of housing and housing infrastructure across the state through loans to cities, counties, not-for-profit organizations focused on housing development, and for-profit and not-for-profit builders and developers. The initial allocation is \$20,000,000.
- Home Loan Guarantee for Rural Kansas (Rural Loan Guarantee) – Established by the Kansas Legislature in 2022, the HLG program evens the playing field for Kansans seeking to build or rehabilitate a home in rural counties. For many rural homebuyers, the cost of building or renovating a home often exceeds the home's appraised value due to a lack of comparable properties in the area. HLG helps financial institutions guarantee the gap under a loan used for land and building purchases, renovation, and new construction costs capitalized or financed within Kansas counties that have a population less than 10,000. HLG guarantees the amount of the loan that exceeds 80% of the appraised value of the home, up to 125% of the appraised value of the home subject to the loan. Each amount of guarantee shall not exceed \$100,000. Financial institutions that serve rural homebuyers request loan guarantee funds from KHRC. Eligible institutions include banks, trust companies, savings banks, credit unions, savings and loan associations, or any other lending institution.
- Evergy – An annual utility funding provided by Evergy for the same purposes of the DOE-WAP program, with the exception that applicants must be an Evergy client. Funds may be used much in the same way as DOE-WAP but cannot be used for gas measures. The funds are separated into two territories, Evergy Metro and Evergy Central, which coincide with Evergy's Kansas Central and Kansas Metro service areas. KHRC receives reimbursement of eligible costs associated with administration of the program.

Cash and Cash Equivalents

KHRC cash equivalents are defined as short-term highly liquid investments that are readily convertible to cash with an original maturity of three months or less.

Restricted cash and cash equivalents include cash held under Federal, State, and private grant programs, valued at fair value. Various government programs or external agreements dictate how these restricted funds may be used.

Investments

Investments are reported at fair value. KHRC's investment policy limits investments to the following investment types: U.S. Treasury Securities, U.S. Government agency obligations, certificates of deposit, investments in the Kansas Municipal Investment Pool, repurchase agreements, promissory notes with maturities of one year or less, commercial paper, and money market funds.

Fair Value of Financial Instruments

GASB 72, *Fair Value Measurement and Application*, which establishes a framework for measuring fair value that requires or permits fair value measurement and enhances disclosures about fair value measurements. Fair value is defined as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction. There is a fair value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value. The guidance requires three levels of fair value measurement based on the respective inputs.

Accounts Receivable

KHRC uses the reserve method of accounting for bad debts. Under this method, all uncollectible accounts are charged to the allowance account, and bad debt expense is determined by adjusting the balance in the allowance account to a reserve considered reasonable by management.

Restricted accounts receivable includes: Federal program receivables for subsidy (pass-through) grant proceeds to be received or spent on behalf of secondary recipients. Various government programs or external agreements dictate how restricted receivable proceeds may be used.

Program Loans Receivable

Program loans receivable consist of no-interest or below market-interest rate loans made to financially assist and develop difficult-to-develop affordable housing areas and provide funding for modifications benefiting disabled and moderate to very low-income rental housing tenants and homeowners. Program loans receivable are carried at the unpaid principal balance outstanding less an allowance for estimated program loans receivable losses. Program loans receivable are generally secured by a subordinated collateral position to the property owner's first mortgage.

Restricted program loans receivable consists of HOME loans funded by the HOME program or reported as HOME match contributions, Tax Credit Assistance Program (TCAP) loans, and Moderate Income Housing (MIH) loans. Since HOME match contributions are permanent contributions to the HOME program, subsequent repayment of the loans is restricted to a HOME project or to HOME-eligible housing. Subsequent repayment of the TCAP loans is restricted to TCAP rules and TCAP eligible uses. MIH loan proceeds are subject to MIH rules and restrictions.

Allowance for Program Loans Receivable Losses

The allowance for program loans receivable losses is increased by charges to expense and decreased by charge-offs (net of recoveries). The provision for program loans receivable losses is charged to expense when, in management's opinion, it is probable KHRC will be unable to collect all amounts (principal and interest) under the contractual terms of the loan documents. The provision for program loans receivable losses also includes corresponding accrued interest on program loans receivable included in the allowance for program loans receivable losses. In evaluating the provision, management generally considers the age of the various program loans receivable portfolios, historical performance of the borrower, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral, subordination position, and current economic conditions.

Interest on Program Loans Receivable

Interest on program loans receivable is accrued based upon the principal amounts outstanding per program loans receivable agreements and includes interest on principal amounts outstanding included in the allowance for program loans receivable losses.

Capital Assets

Capital assets are stated at cost less accumulated depreciation. Individual items with a cost of \$10,000 or more with a useful life of more than one year are capitalized. Maintenance and repairs, which do not improve or extend the useful lives of the respective assets, are expensed as incurred. Depreciation is computed using the straight-line method with no salvage value over the estimated useful lives of the assets ranging from twenty-four months to eight years for leasehold improvements, three to eight years for furniture and equipment, five years for vehicles, five to twenty years for building improvements, and forty years for buildings.

Leases

KHRC is a lessee for noncancelable leases of office equipment and software. KHRC recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the statement of net position. KHRC recognizes lease liabilities with an initial, individual value of \$10,000 or more.

At the commencement of a lease, KHRC initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

KANSAS HOUSING RESOURCES CORPORATION
(A COMPONENT UNIT OF THE STATE OF KANSAS)
NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 1 REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

Leases (Continued)

Key estimates and judgments related to leases include how KHRC determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- KHRC uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, KHRC generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancelable period of the lease and option years that KHRC is reasonably certain to exercise.
- Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that KHRC is reasonably certain to exercise.

KHRC monitors change in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability. Lease assets are reported with other capital assets and lease liabilities are reported as current and noncurrent on the statement of net position.

Subscription-Based Information Technology Arrangements (SBITA)

SBITA assets are initially measured as the sum of the present value of payments expected to be made during the subscription term, payments associated with the SBITA contract made to the SBITA vendor at the commencement of the subscription term, when applicable, and capitalizable implementation costs, less any SBITA vendor incentives received from the SBITA vendor at the commencement of the SBITA term. SBITA assets are amortized in a systematic and rational manner over the shorter of the subscription term or the useful life of the underlying IT assets.

Grants Payable

Grants payable represent amounts received or due for various Federal and State government program grant awards unpaid to grant recipients as of year-end.

Restricted grants payable includes amounts to be paid from restricted assets such as from subsidy (pass-through) grant proceeds to be received or spent on behalf of secondary recipients.

Compensated Absences

KHRC utilizes a modern paid time off (PTO) policy. Under terms of KHRC's PTO policy, which became effective July 1, 2016, employees are granted leave for vacation, sickness, and other personal time under a single accrual. Employees accrue PTO leave at a rate based upon the number of years employed. Minimum usage requirements also apply. Upon retirement or termination, KHRC employees are generally paid for unused PTO leave and accrued compensatory time up to a maximum of 240 hours.

PTO Exchange Liability

KHRC compensated absences policy reflects a 240 maximum hour accrual. Periodically, management evaluates accrued hours in excess of the policy and determines amounts to be paid out. That balance is reflected as a PTO exchange liability in the statement of net position.

Unearned Revenue

Unearned revenue represents (1) Rental Development fees for services received, but not earned (e.g., for allocation fees received, since the owner/developer's allocation request and supporting documents have not been submitted, the fees are unearned); (2) Kansas Housing Conference registration fees received, but not earned (fees are recognized when the conference is held); and (3) grant funding received but not earned (grant funds are recognized when spent for eligible purposes).

Pensions

For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension and pension expense, information about the fiduciary net position of the Kansas Public Employees Retirement System (KPERS), and additions to/deductions from KPERS' fiduciary net position have been determined on the same basis as they are reported by KPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits (OPEB)

For the purpose of measuring the net OPEB liability for KHRC, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense, have been determined by an actuarial valuation and are accounted for in accordance with the requirements of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*.

Net Position

Net position is classified as follows:

Net Investment in Capital Assets – represent KHRC's investment in capital assets and right to use assets less the related liability.

Restricted – represent those operating funds on which external restrictions have been imposed that limit the purposes for which such funds can be used. KHRC is legally or contractually obligated to spend these funds in accordance with the restriction imposed by third parties.

Unrestricted – consist of those operating funds over which the Board of Directors retains full control to use in achieving any of its authorized purposes.

Net Position (Continued)

When an expense is incurred that can be paid using either restricted or unrestricted resources, KHRC's policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

Deferred Outflows of Resources/Deferred Inflows of Resources

The separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. KHRC's deferred outflows are relating to the pension and OPEB liabilities.

The separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. KHRC's deferred inflows are relating to the pension and OPEB liabilities.

Income Taxes

KHRC is a tax-exempt quasi-governmental organization. Accordingly, under Section 115 (1) of the Internal Revenue Code (IRC), no provision for income taxes has been included in the accompanying financial statements.

New GASB Pronouncements

During 2026, KHRC implemented GASB Statement No. 103, *Financial Reporting Model Improvements* and GASB Statement No. 104, *Disclosure of Certain Capital Assets*. The financial statements have been updated to reflect the implementation of those statements.

A summary of investments and maturities as of June 30, 2026, consisted of the following:

Investment Type	Carrying Value	Investment Maturities (In Years)	
		Less than 1	1-5
Certificates of Deposit	\$ 4,214,178	\$ 1,489,661	\$ 2,724,517

Total	<u>\$ 7,960,286</u>	<u>\$ 3,228,036</u>	<u>\$ 4,732,250</u>

Investment Policy. KHRC has adopted a formal investment policy. The primary objectives, in priority order, of investment activities shall be safety, liquidity, and yield. The standard of care to be used by investment officials shall be the “prudent person” standard, and shall be applied in the context of managing an overall portfolio. Investments are made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.

Interest Rate Risk. KHRC minimizes the risk it will realize in losses due to declines in the market value of securities in its portfolios by structuring its investment portfolio so that securities mature to meet cash requirements for scheduled disbursements or ongoing operations, taking into account cash balances available or expected to be available for such requirements, thereby avoiding the need to sell securities on the open market prior to maturity. KHRC also diversifies its investments to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer, or specific class of securities.

Credit Risk. The risk that an issuer or other counterparty to an investment will not fulfill its obligation is called credit risk. Per the investment policy, KHRC will minimize credit risk through pre-qualifying institutions, diversifying its portfolios, and maintaining a standard of quality of authorized eligible investments. As of June 30, 2026, KHRC’s investments were rated AA+ to BBB- by Standard & Poor’s.

Custodial Credit Risk. Custodial credit risk is the risk that, in the event of the failure of the counterparty, KHRC will not be able to recover the value of its deposits or investments that are in the possession of an outside party. KHRC’s investment policy requires collateralization on all demand deposit accounts, and to secure investments in certificates of deposits and repurchase agreements. KHRC also minimizes custodial credit risk by pre-qualifying the custodial or depository institutions, broker/dealers, intermediaries, and advisors with which KHRC will do business. Investments held at June 30, 2026, are held by the investment’s counterparty. The deposits held with a financial institution and the Kansas State Treasurer were fully collateralized at June 30, 2026.

NOTE 2 CASH AND INVESTMENTS (CONTINUED)

Concentration of Credit Risk. KHRC's investments are diversified to minimize the risk of loss resulting from over concentration of assets in a specific maturity, specific issuer, or specific class of securities. The maximum percentage of portfolio by investment type ranges from 100% for U.S. Treasury securities, U.S. Government Instrumentality Obligations and the State of Kansas Pooled Money Investment Board to 15% for bankers' acceptances and commercial paper. All of KHRC's investments, except for certificates of deposit (52.94%), are in U.S. Government Instrumentality Obligations, which include investments in the Federal National Mortgage Association (6.26%), Federal Home Loan Bank (40.80%) as of June 30, 2026.

Risks and Uncertainties. KHRC maintains a portion of its total assets in a combination of bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuation, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect investments and the amounts reported in the combined statement of financial position.

NOTE 3 FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction. There is a fair value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

Certificates of deposit are carried at cost, thus are not included in the fair value hierarchy.

The following describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

KHRC is responsible for the administration, allocation, and compliance of the Rental Development (tax credit) Program for the State of Kansas. Rental Development fees are recognized as revenue as projects progress through the tax credit application process from initial application to final allocation, while Rental Compliance monitoring fees are generally due for all placed-in-service properties no later than March 15th following the first year of credit. The allowance for accounts uncollectible and related provision for bad debts represent an estimate of compliance monitoring fees that will not be paid due to owners opting out of the program or leaving the program due to foreclosure. Rental Compliance monitoring fees receivable are shown net of allowance for uncollectible fees of \$48,044 at June 30, 2026.

Since compliance monitoring reports and related fees are reported on a calendar year basis, the Rental Compliance monitoring fees receivable represents an estimate of compliance monitoring fees due for the period January 2026 through June 2026 for calendar year 2026.

Amounts billed to and collected from government agencies are subject to adjustment as a result of government audits. Thus, HUD Section 8 fees receivable are subject to adjustment.

The Federal program receivable represents subsidy (pass-through) grant proceeds to be received and spent on behalf of secondary recipients. The Federal grant administration/grant receivable represents reimbursable eligible costs incurred in association with administration of various Federal programs.

NOTE 5 PROGRAM LOANS RECEIVABLE (CONTINUED)

The following is a brief description of the various types of program loans financed by KHRC Operations and the State Housing Trust Fund:

KHRC Operations

HOME loans provide loans for housing programs and services, which include programs for the repair, rehabilitation, and improvement of existing residential housing, accessibility modifications, rental subsidies and the provision of housing services and assistance to disabled persons and persons having low or moderate income. Most loans are secured by subordinated mortgages that run concurrent with the first mortgage. Loan repayment is generally based on the following: a percentage of annual excess cash flow (e.g., 25%) when the debt coverage ratio reaches or exceeds 1.25, or on an amortized schedule. First mortgages on tax credit properties are generally based on a 30-year amortization with a 15-year balloon payment. First mortgages on Section 8 properties are generally 40-year terms. Maturity dates vary from calendar years 2026-2049. HOME loans are restricted to a HOME project or to HOME eligible housing.

TCAP loans provided gap funding for Tax Credit projects that, but for this funding, would likely not be developed in the current market. The TCAP loans were funded under ARRA through HUD. Loan repayment is based on a balloon payment due sixteen years after the commencement of the compliance period as defined by Internal Revenue Code Section 42. All loans are secured by a mortgage and mature in calendar year 2027. TCAP loans are restricted to TCAP rules and eligible uses.

Other KHRC Operations loans provide loans for housing programs and services, which include programs for the repair, rehabilitation, and improvement of existing residential housing, and new construction loans. Other KHRC Operations loans are funded by KHRC Operations. Loans are secured by a mortgage or other agreement and mature between calendar years 2026 and 2030.

State Housing Trust Fund

State Housing Trust Fund loans provide loans for housing programs and services, which include programs for the repair, rehabilitation, and improvement of existing residential housing, accessibility modifications, rental subsidies and the provision of housing services and assistance to disabled persons and persons having low or moderate income. Loan repayment is generally based on a percentage of excess cash flow (e.g., 25%) when the debt coverage ratio reaches or exceeds 1.25 or on an amortized schedule. All loans are secured by mortgages, which are generally subordinated to the first mortgage and due through calendar year 2032.

State Housing Trust Fund (Continued)

Revolving Loans provide support for the development of housing and housing infrastructure through loans to cities, counties, nonprofit organizations focused on housing development, builders, and developers. The Rural Housing Revolving Loan Program provided \$10,750,000 available for loans and the Statewide Revolving Loan Program provided \$20,000,000 available for loans. Senate Bill 28 allows the loans through this program to also go to not-for profit organizations focused on housing development and for-profit and not-for-profit builders and developers and some Rural Housing Revolving Loan Program funds may be used in some urban areas. The terms on the revolving loans vary. Subsequent repayment of Revolving loans is restricted.

HUD Restructured loans were donated to KHRC through the Office of Affordable Housing Preservation per Section 517(a)(5) of the Multifamily Assisted Housing Restructuring Act of 1997, which provides debt restructuring, including the subordination of HUD held notes, to qualified FHA insured multifamily Section 8 properties. Loan repayment is based on 75% of Surplus Cash per HUD definition. The properties receive project-based Section 8 subsidy and have 30-year first mortgages expiring between calendar years 2034 and 2037.

Financing Adjustment Factor (FAF) loans were available per Section 1012(a) of the Stewart B. McKinney Homeless Assistance Act of 1988, as amended, which provided 50% of the amounts recaptured from the refinancing of certain bond-financed projects that shall be made available to KHRC for loans and grants. These funds were used in the State of Kansas to provide decent, safe, and sanitary housing affordable to very low-income families or persons. Loan repayment is generally based on 75% of surplus cash per HUD definition. Most of the properties that received FAF loans were Section 8 FHA-insured with 40-year first mortgages expiring between calendar years 2026 and 2035. Subsequent repayment of FAF loans is unrestricted.

Disaster loans provided loans for new construction or reconstruction of disaster-affected communities. Disaster loans were funded by the State of Kansas State Finance Council. Loan repayment is generally based on a 15 or 20-year balloon payment with maturity dates between calendar years 2026 and 2028. Subsequent repayment of Disaster loans is unrestricted.

NOTE 8 HOME MATCH CARRYFORWARD

By establishing the HOME program, Congress intended to establish a partnership between the Federal government and states, units of local government, and nonprofit organizations to expand the supply of affordable, standard housing for low-income families. In keeping with the concept of partnership, each jurisdiction participating in the HOME program is required to make contributions to qualified housing in an amount equal to 25% of appropriated HOME funds drawn for housing projects. These contributions are known as "match." KHRC incurs match obligation each Federal fiscal year based on the amount of HOME funds drawn from its U.S. Treasury account subject to match. Each Federal fiscal year, KHRC must make eligible matching contributions in an amount that equals the match obligation incurred during that fiscal year. Matching contributions made in excess of the match obligation may be carried forward to meet the next year's obligation.

At June 30, 2026, KHRC had an overage in match contributions of \$13,528,827.

NOTE 9 EMPLOYEES RETIREMENT SYSTEM

General Information about the Pension Plan

Plan Description. KHRC participates in the Kansas Public Employees Retirement System (KPERS), a cost-sharing multiple-employer defined benefit pension plan as provided by K.S.A. 74-4901, et. seq. Kansas law establishes and amends benefit provisions. KPERS issues a publicly available financial report that includes financial statements and required supplementary information. KPERS' financial statements are included in its Annual Comprehensive Financial Report which can be found on the KPERS website at www.kpers.org or by writing to KPERS (611 South Kansas, Suite 100, Topeka, KS 66603) or by calling 1-888-275-5737.

Benefits Provided. KPERS provides retirement benefits, life insurance, disability income benefits, and death benefits. Benefits are established by statute and may only be changed by the General Assembly. Member employees with 10 or more years of credited service may retire as early as age 55, with an actuarially reduced monthly benefit. Normal retirement is at age 65, age 62 with 10 years of credited service, or whenever an employee's combined age and years of credited service equal 85 "points."

Monthly retirement benefits are based on a statutory formula that includes final average salary and years of service. When ending employment, member employees may withdraw their contributions from their individual accounts, including interest. Member employees who withdraw their accumulated contributions lose all rights and privileges of membership. The accumulated contributions and interest are deposited into and disbursed from the membership accumulated reserve fund as established by K.S.A. 74-4922.

Member employees choose one of seven payment options for their monthly retirement benefits. At retirement, a member employee may receive a lump-sum payment of up to 50% of the actuarial present value of the member employee's lifetime benefit. His or her monthly retirement benefit is then permanently reduced based on the amount of the lump-sum. Benefit increases, including ad hoc post-retirement benefit increases, must be passed into law by the Kansas Legislature. Benefit increases are under the authority of the Legislature and the Governor of the State of Kansas. The retirement benefits are disbursed from the retirement benefit payment reserve fund as established by K.S.A. 74-4922.

Contributions. K.S.A. 74-4919 and K.S.A. 74-49,210 establish the KPERS member-employee contributions rates. Effective January 1, 2015, KPERS has three benefit structures and contribution rates dependent on whether the employee is a Tier 1, Tier 2, or Tier 3 member. Tier 1 members are active and contributing members hired before July 1, 2009. Tier 2 members were first employed in a covered position on or after July 1, 2009, and before January 1, 2015. Tier 3 members were first employed in a covered position on or after January 1, 2015. Effective January 1, 2015, Kansas law established the KPERS member-employee contribution rate at 6% of all Tier members. Member employees' contributions are withheld by their employer and paid to KPERS according to the provisions of Section 414(h) of the Internal Revenue Code.

General Information about the Pension Plan (Continued)

State law provides that the employer contribution rates be determined based on the results of each annual actuarial valuation. KPERS is funded on an actuarial reserve basis. Kansas law sets a limitation on annual increases in the employer contribution rates. The actuarially determined employer contribution rate was 10.81% for fiscal year ended June 30, 2025. The statutory contribution rate for fiscal year 2025 was 11.54%. Contributions to the pension plan from KHRC were \$641,119 for the year ended June 30, 2026.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2026, KHRC reported a liability of \$5,597,656 for its proportionate share of KPERS' collective net pension liability. The collective net pension liability was measured by KPERS as of June 30, 2025 and the total pension liability used to calculate the collective net pension liability was determined by an actuarial valuation as of December 31, 2024, which was rolled forward to June 30, 2025. KHRC's proportion of the collective net pension liability was based on the ratio of KHRC's actual contributions to KPERS, relative to the total employer and non-employer contributions of the State/School subgroup within KPERS for the fiscal year ended June 30, 2025. The contributions used exclude contributions made for prior service, excess benefits, and irregular payments. At June 30, 2025, KHRC's proportion was 0.092856%, which decreased by 0.002966% from its proportion measured as of June 30, 2024 of 0.095822%.

For the year ended June 30, 2026, KHRC recognized a pension expense of \$501,402, which is recorded with salaries and related payroll expenses. At June 30, 2026, KHRC reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference Between Expected and Actual Experience	\$ 376,724	\$ -
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	-	204,390
Changes in Assumptions	156,956	116,450

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The \$641,119 reported as deferred outflows of resources related to pensions resulting from KHRC contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended June 30, 2027. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (deferred inflows):

<u>Year Ending June 30,</u>	<u>Amount</u>
2027	\$ 342,532
2028	(46,802)
2029	(89,529)
2030	(51,650)
Total	<u>\$ 154,551</u>

Actuarial Assumptions. The total pension liability in the December 31, 2025, actuarial valuation, which was rolled forward to June 30, 2026, was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method	Entry Age Normal
Price Inflation	2.75%
Salary Increases, Including Price Inflation	3.50% to 15.50%
Long-Term Rate of Return Net of Investment Expense and Including Price Inflation	7.00%

Mortality rates were based on the RP-2014 Combined Mortality Table for Males or Females, as appropriate, with adjustments for age setback or set forward and actual experience. Rates are projected into the future using Scale MP-2016.

The actuarial assumptions used in the December 31, 2025, valuation were based on the results of an actuarial experience study conducted during 2025, dated December 31, 2025.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

NOTE 9 EMPLOYEES RETIREMENT SYSTEM (CONTINUED)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocations are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Non-U.S. Equities	43.0	8.20
Core Fixed Income	13.0	2.20
Yield Driven	12.0	5.30
Infrastructure	3.0	6.80
Real Estate	15.0	5.70
Alternative	11.0	12.00
Short Term Investments	3.0	0.30
Total	<u>100.0 %</u>	

Discount Rate. The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the contractually required rate and that contributions from KHRC will be made at the contractually required rate. State/School employers do not necessarily contribute the full actuarial determined rate. Based on legislation passed in 1993, the employer contribution rates certified by the KPERS' Board of Trustees for this group may not increase by more than the statutory cap. The expected KPERS employer contribution was modeled for future years, assuming all actuarial assumptions are met in the future. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of KHRC's Proportionate Share of the Collective Net Pension Liability to Changes in the Discount Rate. The following presents KHRC's proportionate share of the collective net pension liability calculated using the discount rate of 7.00%, as well as what KHRC's proportionate share of the collective net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
KHRC's Proportionate Share of the Collective Net Pension Liability	<u>\$ 8,443,766</u>	<u>\$ 5,597,656</u>	<u>\$ 3,203,628</u>

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in the separately issued KPERS' financial report.

NOTE 10 OTHER POSTEMPLOYMENT BENEFITS (OPEB)

General Information about the OPEB Plan

KPERS sponsors a long-term disability program for participating employers. Participating employers pay the cost of the long-term disability and life insurance coverage for their eligible members. For GASB 75 purposes, Kansas Housing Resource Corporation is considered to be participating in a single employer long-term disability plan.

Eligible employees consist of all individuals who are:

- Currently active members of KPERS;
- Employees of an educational institution under the Kansas Board of Regents as defined in K.S.A. 74-4925;
- Eligible employees of University of Kansas Hospital Authority as defined in K.S.A. 76-3322; or
- Elected officials.

The plan provides a group life insurance benefit for active members through a fully-insured program with Standard Insurance Company. Because this benefit is fully-insured, it is not included in the scope of the actuarial valuation for the OPEB liability. The plan also provides a self-funded LTD benefit and a self-funded life insurance benefit for disabled members (referred to as "group life waiver of premium"). These items are considered "Other Post-Employment Benefits" under GASB 75 accounting rules, and they are included in the actuarial valuation for the OPEB liability. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Employees Covered by Benefit Terms. As of December 31, 2024, the date of the latest actuarial valuation, the following employees were covered by the benefit terms:

Active Plan Members	<u>62</u>
Total Plan Members	<u><u>62</u></u>

Contributions. All KPERS employers contribute a statutory 1% of pay for the Death and Disability Plan. There is no employee contribution for the Death and Disability Plan.

NOTE 10 OTHER POSTEMPLOYMENT BENEFITS (OPEB) (CONTINUED)

General Information about the OPEB Plan (Continued)

Benefits. The key provisions of the LTD benefit include the following:

- **Definition of Disability.** For the first 24 months following the end of the benefit waiting period, a member is totally disabled if the member is unable to perform the material and substantial duties of his or her regular occupation due to sickness or injury. Thereafter, the member is totally disabled if the member is unable to perform the material and substantial duties of any gainful occupation due to sickness or injury.
- **Benefit Waiting Period.** For approved claims, benefits begin on the later of (a) the date the member completes 180 continuous days of total disability; or (b) the date the member ceases to draw compensation from his or her employer.
- **Monthly Benefit.** The monthly benefit is 60% of the member's monthly rate of compensation, with a minimum of \$100 and a maximum of \$5,000. The monthly benefit is subject to reduction by deductible sources of income, which include Social Security primary disability or retirement benefits, worker's compensation benefits, other disability benefits from any other source by reason of employment, and earnings from any form of employment.
- **Maximum Benefit Period.** If the disability begins before age 60, benefits are payable while disability continues until the member's 65th birthday or retirement date, whichever first occurs. If the disability occurs at or after age 60, benefits are payable while disability continues, for a period of five years or until the date of the member's retirement, whichever first occurs.
- **Limitation for Mental Illnesses and Substance Abuse.** Benefit payments for disabilities caused or contributed to by substance abuse or non-biologically-based mental illnesses are limited to the term of the disability or 24 months per lifetime, whichever is less.

The key provisions of the group life waiver of premium benefit include the following:

- **Benefit Amount.** Upon the death of a member who is receiving monthly disability benefits, the plan will pay a lump-sum benefit to eligible beneficiaries. The benefit amount will be 150% of the greater of (a) the member's annual rate of compensation at the time of disability, or (b) the member's previous 12 months of compensation at the time of the last date on payroll. If the member had been disabled for five or more years, the annual compensation or salary rate at the time of death will be indexed before the life insurance benefit is computed. The indexing is based on the consumer price index, less one percentage point.
- **Accelerated Death Benefit.** If a member is diagnosed as terminally ill with a life expectancy of 12 months or less, he or she may be eligible to receive up to 100% of the death benefit rather than having the benefit paid to the beneficiary.
- **Conversion Right.** If a member retires or disability benefits end, he or she may convert the group life insurance coverage to an individual life insurance policy.

Actuarial Assumptions. The following actuarial assumptions were used in the development of KHRC's long-term disability cost projections. Where consistent with the terms of the plan, actuarial assumptions affecting active employee liabilities have utilized the assumptions for the KPERS as provided in the December 31, 2024, actuarial valuation reports for the pension plan. These assumptions were adopted by the KPERS Board in connection with an experience study prepared during 2024. Assumptions related to post-disability payout streams are based on historical experience of the KPERS Death and Disability Plan for all participants.

NOTE 11 DEFERRED COMPENSATION PLAN

The State offers a Deferred Compensation Plan (Plan), a voluntary defined contribution retirement plan, as authorized by IRS Code Section 457. Salary reduction agreements are made with eligible employees whereby prescribed amounts are withheld from the employees' pay and remitted to the Trustee, Great West Financial, LLC, which invests the withholdings in eligible annuity products in accordance with the investment instructions of the employees. These monies are not available to employees until termination or retirement from employment, death, or unforeseeable emergency. Any employees, except those employed on an emergency, temporary, or intermittent basis, are eligible on their first day of employment to participate in the Plan. During fiscal year 2026, 62 KHRC employees participated in the Plan.

All assets under this Plan are held in trust for the exclusive benefit of participants and their beneficiaries. For this purpose, an annuity contract or custodial account described in IRS Code Section 497(g) is treated as a trust.

NOTE 12 RECOGNIZED MATCH INCOME AND EXPENSE

HOME Match Income and Expense – The HOME program requires a 25% matching obligation when HOME funds subject to matching requirements are drawn from its U.S. Treasury account. The HOME program provides a 100% match reduction (draws are not subject to match) for funds expended in areas with an approved Presidential disaster declaration for up to two Federal fiscal years. HOME match income and expense amounts represent match contributions provided by KHRC and non-KHRC (e.g., subgrantee) resources, which reduce KHRC's HOME match obligation. Excess HOME match may be carried forward to meet the next year's obligation.

ESG Match Income and Expense – The ESG program requires a dollar for dollar matching obligation when ESG funds subject to matching requirements are drawn from its U.S. Treasury account. ESG match income and expense amounts represent match contributions provided by KHRC and non-KHRC (e.g., subgrantee) resources, which reduce KHRC's ESG match obligation. ESG income equals ESG match expense resulting in a net effect of zero on KHRC's financial statements. Unlike HOME match, excess ESG match by grant year may not be carried forward to meet the next year's obligation.

Match expense for the period ending June 30, 2026, is as follows:

Recognized Match Income - HOME	\$ 1,274,613
Recognized Match Income - ESG	<u>1,342,619</u>
Total Recognized Match Income	<u>2,617,232</u>
Recognized Match Expense - HOME	1,274,613
Recognized Match Expense - ESG	<u>1,342,619</u>
Total Recognized Match Expense	<u>2,617,232</u>
Net Recognized Match Expense	<u><u>\$ -</u></u>

Match income and expense reflected on KHRC's financial statements represents HOME match inclusive of non-KHRC match contributions, excluding excess match contributions carried over to future years (see also Note 8), and ESG and HMIS match.

NOTE 13 INTERFUND TRANSFERS

A summary of interfund transfers by fund for the year ended June 30, 2026, is as follows:

	Transfers In	Transfers Out
KHRC Operations	\$ 594,115	\$ (10,165)
State Housing Trust Fund	10,165	(594,115)
Total Transfers	<u>\$ 604,280</u>	<u>\$ (604,280)</u>

The interfund transfers primarily include transfers from the SHTF to KHRC operations for LIEAP WAP, ESG, and HMIS programs. Other transfers represent routine reallocations among program funds to support program operations and grant administration.

NOTE 14 RISK MANAGEMENT

KHRC is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Claims expenses and liabilities are reported when it is probable a loss has occurred and the amount of the loss can be reasonably estimated. KHRC has not made a claim against any of the insurance policies. KHRC also has commercial insurance coverage on personal property with a limit of \$998,917 and a \$1,000 deductible, which includes coverage on electronic data processing equipment, media, and data. This policy also provides general liability coverage with a \$1,000,000 per occurrence/\$2,000,000 aggregate limit. In addition, there is a Public Officials and Employees Liability Insurance Policy including Employment Practices Liability with an aggregate limit of \$2,000,000 and a \$1,000 deductible, and Business Auto coverage including hired and non-owned auto liability with a limit of \$1,000,000 combined single limit for Bodily Injury and Property Damage. KHRC also has a fidelity bond insurance policy with a \$5,500,000 employee dishonesty/fidelity limit, and a \$1,000,000 limit for forgery or alteration, computer fraud, and other miscellaneous types of coverage, and a \$50,000 deductible. KHRC also participates in the State's nonstate employee health benefit plan. Insurance settlements have not exceeded insurance coverage for fiscal years ending June 30, 2026, 2025, or 2024.

NOTE 15 CONTINGENCIES AND COMMITMENTS

Intergovernmental Financial Assistance – KHRC administers various Federal and State programs. These programs are subject to audit and adjustment by the awarding agencies and other organizations. Any disallowed claims, including amounts already collected may constitute a liability of the applicable program. The amount, if any, of expenses disallowed cannot be determined at this time. KHRC expects such amounts, if any, to be immaterial.

Litigation – KHRC, in the normal course of business, is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, KHRC believes the resolution of these matters will not have a material adverse effect on the financial condition of KHRC.

NOTE 15 CONTINGENCIES AND COMMITMENTS (CONTINUED)

Annual Contributions Contract – KHRC entered into an amended Annual Contributions Contract (ACC) with HUD for project-based Section 8 contract administration on August 29, 2011. The agreement extended KHRC's contract from its original expiration date of October 1, 2011 to March 31, 2012 and provided HUD the option to extend the ACC for up to three additional and successive renewal terms of three calendar months each for the period April 1, 2012 through December 31, 2012. The amended agreement contained reduced tasks and correspondingly reduced fees for services. On August 15, 2012, the Government Accountability Office (GAO) sustained protests filed against HUD under the PBCA NOFA proposals, which were due in June 2012. On August 7, 2013, HUD awarded new ACC contracts in 42 states, which included KHRC being awarded the Kansas contract. On March 25, 2014, the United States Court of Appeals ruled against HUD and determined procurement contracts rather than PBCA NOFA proposals should have been issued. During the fiscal year 2019, the contract was extended to January 31, 2021, with the option by HUD exercised to further extend it for up to two additional and successive extension terms of six months each. During fiscal year 2023, the contract was extended to January 31, 2024. During fiscal year 2024, the contract was extended to January 31, 2025. During fiscal year 2026, the contract was extended to July 31, 2026. During FY27, the contract was extended to January 31, 2027.

NOTE 16 JOINT POWERS AGREEMENTS

KHRC entered into a joint powers agreement with the State of Kansas' Department of Social and Rehabilitation Services (SRS) on January 16, 2008, and an amended agreement with the new Kansas Department for Children and Families (DCF) on October 1, 2016 for the period October 1, 2016 through September 30, 2018. The agreement was amended on October 1, 2018 to extend the contract through September 30, 2019, on October 1, 2019 to extend the contract through September 30, 2020, on October 1, 2020 to extend the contract through September 30, 2021, on October 1, 2021 to extend the contract through September 30, 2022, and on October 1, 2022 to extend the contract through September 30, 2023 with the option to renew by mutual, written consent. The purpose of the agreement is to transfer 15% of a portion of SRS'/DCF's Low Income Energy Assistance (LIEAP) regular block grant to supplement KHRC's Department of Energy Weatherization Assistance Program (DOE WAP) funds. The agreements are subject to Federal funding availability.

NOTE 17 FEDERAL GRANTS AUDIT UNDER OMB 2 CFR, PART 200. SUBPART F – AUDIT REQUIREMENTS

The U.S. Office of Management and Budget (OMB) 2 *CFR, Part 200, Subpart F – Audit Requirements and Government Auditing Standards* require audits of KHRC's expenditures of Federal awards since KHRC's expenditures were \$1,000,000 or more in the fiscal year ended June 30, 2026. Such expenditures are included in the June 30, 2026, *OMB 2 CFR, Part 200, Subpart F – Audit Requirements* audit for the State of Kansas.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors
Kansas Housing Resources Corporation
Topeka, Kansas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and each major fund of Kansas Housing Resources Corporation (KHRC), a component unit of the State of Kansas, as of and for the year ended June 30, 2026, and the related notes to the financial statements, which collectively comprise the KHRC's basic financial statements, and have issued our report thereon dated September 28, 2026.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered KHRC's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of KHRC's internal control. Accordingly, we do not express an opinion on the effectiveness of KHRC's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether KHRC's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
